“ It will not be the same without Jimmy. It was always extra fun when we would be at White Lake at the same time. He used to do metal detecting in the water and found all kinds of interesting things. The detector made a low tone sound when the wand was run over an object and he kept my cousin guessing for a long time what was actually making the sound! We all had a big laugh when she finally found out! He will be missed by us all.

“ I don't even know where to begin...He was there from the beginning, he helped name me. Him and my grandmother made me the man I am today. I still remember the first time driving his jeep on the farm, it was so exciting. He taught me how to fish, safely handle and shoot a gun. He was always my biggest fan and my strongest critic. But I admire that quality about him cause it kept me on the right path. I feel honored to having been able to call him my grandpa. Although I cannot see or hear him, I know he is right beside me helping me in all I do. I love you and miss you so very much!
