“ He was our bus driver when I went to school. When we would go around the curve on Piney Grove Rd, I was scared to death. We were always safe after that big curve, but oh, so scary.

“ My grandpa was a big outdoor enthusiast. Growing up I would always get so excited to go visit him at his house at Belews Creek. Every time we would visit, he would let me ride his four wheeler around on his beautiful property, which to this day is something i think about and miss quite frequently. One of my favorite memories of grandpa Ronnie was him showing me his gun huge collection and taking me to test them out with him. While we were out shooting he would always tell me stories of deer he had shot with that that gun. Ronnie was never short on a story or a joke and was always putting a smile on peoples face. You will be missed by many!

“ When I met Ronnie for the first time we sat at his kitchen table, played cards and told jokes for hours. He showed me his “farting” machine and shared his secrets on his deer detector. He even had me try to simulate shooting one out his kitchen window. I left with a new knife in my back pocket and a renewed sense of good ol’ fashioned southern charm. He was one of a kind and will be missed by all who knew him well.

“ I was lucky enough to have met Ronnie through Chris. From day one he felt like a second feather to me. He would pick at me, tell jokes and go out of his way to try to make me laugh and smile. It was an honor and privilege to have known him. I will miss our talks sitting outside at the farm.

“ My Dad could build anything with metal. He built large industrial storage tanks professionally but one of his most memorable builds I witnessed was the summer he built his own backyard swimming pool out of steel. He was highly industrious as well as incredibly thrifty. He regularly demonstrated the value of hard work and taught me some basic but profound principles like “how to plan your work and work your plan “ that I honor daily. You will be missed Dad!
